

Prayer Requests Feb 26, 2018

Maryann	Lang	Please keep my son Jordan and his wife Raquel in prayer as they are dealing with some difficult relational issues right now. We really need God's divine intervention as well as his mercy, grace, and Holy Spirit. Please keep me in those prayers as well. Praying that God grants me wisdom, direction, and peace in the midst of many storms. Please keep this request confidential. Thank you.
Kristen	Shaw	Monday my sons father was given about 3 months to live. We are in the hospital working to find a way to get around this. He's got last stage liver disease and he's only 35. We have a beautiful 11 year old son who is best friends with his daddy. He has battled with alcohol but had recently made the decision to quit and started taking a blocker only for this tragedy to knock down hope. My mother passed Oct 5th with thr same issue. I'm asking that you pray for us to find a last stitch solution and if we cannot I pray for his peace and comfort. We need big prayers PLEASE!!! Thank you
Luke	Katafiasz	Thanks and praise for getting me through a rough winter season, including but not only getting a car. Asking for prayer for my bother who's whole life is hanging on his next few months of schooling. That he find the strength and motivation to tackle his papers and engage with this teachers. That he find joy even in the middle of his struggle and peace when it all said and done. For my parents' visit to my grandfather: that it's a safe and rewarding trip. For my grand father's mental and physical health. For my sisters, Cindy and Becky, along with their families. For the handful of couples I know who had or are having babies soon. For all the youth and youth workers in the community, that Jesus is seen and known to be working in their midst. Also for me, wisdom and clarity as I take assessment of my current situation. That I can clearly see the places where I need to let go and know all the places where I need to step up. That I have to the strength and courage to act, making full use of God's grace as I do. Thanks for this crazy, often difficulty but ultimately beautiful and amazing world that God made and let us participate in.

Michael	Hignutt	Good morning alc prayer warriors,please pray for serina hignutt she went to e/r for numbness in her face.i believe she has bells paulsey,please ask for gods healing.please pray for bill Johnston sr. he has been sick with the flu for weeks, and went out to get lunch.and had a car accident,he hit the gas pedal instead of the brake pedal.he is ok , but the other person is claiming he is hurt. the accident happened at fast food drive thru.he is a older man and very upset with himself.for making this mistake. please pray for this senceless killing in our schools and everywhere to stop.please pray for respect for one another,love,and kindness.pray for those with mental illness to get help,pray for our country we need a healing, we need people to open their hearts to god.pray for good health, happiness ,love,and all gods blessings to all his children.have a blessed day.
Terry	Hoggard	Pray for Angie, my dad's wife, received a call last Friday from her doctor letting her know that the scan they did in preparation for a simple intervention that was scheduled to be done today revealed something quite concerning. He asked her to come see him on Monday. Yesterday we learned that she has a very large tumor that has already invaded her bladder, lymph nodes and is widespread in the entire area. As she is 81 and very fragile there simply are not a lot of interventions that can be taken. Sadly, my dad who lost my mom to Alzheimer's at 66, his second wife to brain cancer, is now seemingly going to have to walk that road for a third time. I am asking you to pray for Angie, my dad and our family in these days like never before.
Michael	Hignutt	Please pray that that as we are coming out of that hell,that god will heal what has been broken, and turn ashes into beauty. Pray that what was lost, shattered, can be used for the glory of our lord. Pray that in the future we will look back upon this time, and know that god was with us, carried us, stayed with us.
